CLIMATE CHANGE GOVERNANCE, GENDER AND SOCIAL PROTECTION IN MALAWI.

Social Protection and Climate change in the SADC 2030 Agenda for Sustainable Development
Climate change and gender

- Malawi vulnerable to climate change
- **Malawi's** agriculturally-based economy most affected
- Women who bear the brunt of environmental, economic and social shocks – *health, safety, increased domestic work etc*
Climate change governance

- context and time-specific
- having regard to gender differences
- formal and informal rules of existing institutions
- solve and mitigate the problems experienced
- Women’s participation crucial yet ‘misrecognised’
  ✓ Agency and autonomy
  ✓ Influence and benefit
• UNFCC
