What is Kenya’s Single Registry?
“Single Registry Main Page”

Welcome to Kenya’s Single Registry

Before
Are complaints being resolved?
Who is receiving what, where and under which programme?
Are plans to expand programmes on track?
Are beneficiaries receiving their transfers on time?
Are beneficiary IDs valid?

Social Assistance Cash Transfer Programmes in Kenya
By 2012, 3 million people were receiving cash transfers in Kenya from separate programmes. A coordinated way of managing and viewing this information was needed.

The Enabling Environment

The Single Registry is officially launched.

What is the Single Registry?
The Single Registry is a software platform designed to manage and provide integrated oversight of the principal social assistance cash transfer programmes in Kenya. The Single Registry has evolved as part of the broader social protection policy framework, with two stated objectives:
(i) to provide increased harmonisation and

Significance of the Single Registry
The introduction of the Single Registry has increased the transparency, accountability and the functioning of the social assistance programmes in Kenya. Previously, managers were unable to answer the simple of question of who was receiving what within each social protection programme. The registry has now linked data from the disparate programmes into one coherent viewing platform.

Who can use the Single Registry?
Anyone can use the Single Registry as a tool for searching data on Kenya’s social protection programmes and beyond. The data will be most used by local and national government, policymakers, safety net programme designers and managers.
